Symantec Endpoint Protection Setup Manual

If there is other antivirus software they should be uninstalled before installing Symantec EndPoint Protection Software. Otherwise, Different Antivirus software can detect definition files of other software as a threat that can create some problems. EndPoint software can be downloaded from "<u>ftp://ftp.cc.metu.edu.tr/Security/Symantec Antivirus/Symantec AntiVirus Endpoint 11 Protection</u> <u>/</u>". It should be extracted to a folder and SETUP.EXE is run. When Setup begins, you can pass to next step by clicking on "Next" button. (Figure 1)
